Winter 2023

Start The New Year Off Right With A Great Smile

We offer general dentistry for the entire family, ages four and up! Our services include Oral Evaluations, Digital X-rays, Cleanings, Fillings, and more. Our experienced team of dentists, hygienists and expanded function dental assistants are ready to accurately evaluate and treat your family's dental health needs.

Don't forget to check for Renewed Benefits on your Dental Insurance. You may be eligible for many dental procedures such as checkups, x-rays and more at little to no out-of-pocket costs to you. We accept Delta Dental, MetLife, Guardian and over 200 other dental insurance carriers. If you need a little extra help with payment, we also accept CareCredit (some restrictions apply).

Appointment times are filling fast, so call us today at (417) 466-7196 or at (800) 354-1905 to schedule you or your family's next visit. Learn more about all our services, pricing and options by visiting us online at: www.MidAmericaDental.com

Making the Best of Your SMILE...Even Better!

Dental Centers is committed to providing you with the highest quality orthodontic care in a friendly and most importantly, comfortable atmosphere. Dr. Brian Collins utilizes the latest technological advances and computer imaging to ensure we create a happy, healthy, beautiful smile for every patient.

We recognize every patient has their own unique and amazing smile. We truly understand the different needs for our patients, and we're committed to providing the best in Family Dentistry and our specialized Orthodontics. At Dental Centers, we utilize innovative market techniques, proven products to produce reliable, and quality treatment outcomes.

We work with a wide range of age groups, and it is also never too late for adults to seek orthodontic treatment as well. Call us at (800) 354-1905 or (417) 466-7196 and schedule your consultation today.

Together with our Orthodontist, Dr. Rosevear and our Expanded Function Dental Assistants, licensed in Missouri for Expanded Functions in orthodontics, we can help you get started on your path to a beautiful new smile for much less than you might think.

Understanding the Immediate Denture Process

1: CONSULTATION & IMPRESSIONS: A dental team member will escort you back and take x-rays where your doctor will perform a comprehensive oral evaluation and develop a treatment plan for your individual needs. Once your needs have been established, the dental team will discuss price ranges, materials, and tooth shades with you. Your impressions will be taken to the dentist and the lab supervisor for approval while you visit the cashier for payment and wait for approval to be given.

2: WAX TRY-INS: Are for existing denture wearers or for replacement dentures. If you are replacing an existing upper or lower denture and are having teeth extracted, you will have a wax model made in the morning for that denture and return for extractions in the afternoon. Adjustments will be made as necessary before the model is sent back to the lab. Wax try-in is for checking bite and appearance of your new denture. Your dentures are made using this model, so please be sure you are satisfied with them before giving your approval to have the dentures made.

3: DELIVERY OF DENTURES: You will return to be prepped for your tooth extractions and to receive your dentures. After your teeth are extracted, the assistant will insert your denture, make any necessary adjustments, and provide care instructions.

Signs Your Dentures Need To Be Replaced..!

Dentures allow many individuals to speak, eat, and smile normally. If you have dentures, you know you must care for them properly to ensure they last as long as possible. But how do you know when your dentures need an adjustment or repair? If you notice any of the 11 following signs...It's time to see your dentist.

1. **BROKEN TEETH:** If you drop your dentures, step on them, or even break a tooth. Do not attempt to reattach the tooth yourself.
2. **CHIPS OR CRACKS:** Not every accident claims an entire tooth-you may notice chips, pitting, or cracks instead.
3. **DIFFICULTY CHEWING:** Notice an increased difficulty of chewing it may indicate a need to refit your dentures to the exact shape of your gums.
4. **DISCOMFORT:** If you notice jaw soreness, uneven pressure, pain when biting down.
5. **FACIAL SHAPE CHANGES:** Notice changes to your cheeks or jawline's appearance, your dentures likely need adjustment.
6. **FIT CHANGES:** Getting the correct fit is the key to eliminating the painful pressure sores as well.
7. **PRESSURE SORES:** Pressure sores are caused from ill-fitting dentures.
8. **GUM IRRITATION & ORAL SORES:** Watch for any raw spots, inflammation, or bleeding.
10. **STAINS OR PERSISTENT ODORS:** You can combat some of these symptoms by maintaining a regular oral hygiene routine.
11. **SPEECH PATTERN CHANGES**
